

MYTH:

“They understand everything... so they’ll talk soon.”

NOT ALWAYS.

Understanding and talking are two different skills.

Some children understand far more than they can express.

Early support can make a real difference—reducing frustration, building confidence, and giving children the tools to find their voice.

I understand more than I can say right now.

Different skills.
Different time.
With the right support, every child can shine.

SUPPORT THAT HONOURS EVERY CHILD'S UNIQUE JOURNEY

Speech Delays

Autism & Social Communication

DLD (Developmental Language Disorder)

Speech Sound Difficulties
